Lars Broman

How it all began. Presentation at the SERC and ESES Jubilee 2014

Solar Energy Research Center SERC started at Dalarna University in November 1984 with Lars Broman as its first Director. 15 years later, the master program European Solar Engineering School ESES started in August 1999, again with Broman as its first Director. The combined 30- and 15-year jubilee took place on 23 October 2014 at Galaxen in Borlänge. There Broman gave a 30-min presentation on how SERC and ESES began. He also wrote a report in Swedish on the pre-history and early history of SERC and ESES in Swedish, which was published in Strömstad Academy's FSS-series, available here: http://www.stromstadakademi.se/sa_pdf/FSS-2.pdf.

Lars Broman's presentation can be seen and heard here:

Strömstad akademis styrelse beslutade 12 oktober 2019 att inrätta Strömstad akademis videoserie med följande riktlinjer:

Ledamöter i Strömstad akademi kan få en video publicerad i Strömstad akademis videoserie. Det är akademiens redaktionskommitté som avgör om en video kan publiceras av akademien. Författaren ansvarar för innehållet och för att det inte strider mot svensk lag eller innehåller copyrightskyddat material.
